Gossip of the Clubs.

The well known tendency of Omaha to clubs of late years has been illustrated by the new departure of the social organization known as the Metropolitan club. For several years it has thrived under its present management and object, but it has realized the idea of many member who desired something besides a mere hall in which to hold the two top floors in Knony's building, on the southwest corner of Fourteenth and Dodge streets, for a number of years. These they will change in the most approved style of club rooms, according to plans suggested by Mendelssohn & Lawrie, and based upon ideas suggested by some of the handsomest quar-ters in Chicago. These will be elaborately furnished at an expense of not less than \$4,000. The Metropolitan club has always been one of the strongest social organizations in the city, and the new departure will give its members greater facility to enjoy themselves in a metropolitan manner.
